

CHAPTER 4

TRANSPORTATION ACCOUNT CODES OTHER THAN DOD AND U. S. GOVERNMENT AGENCIES

SECTION A. GENERAL

1. Introduction. *This chapter provides information pertaining to the assignment of TACs for other DoD and U.S. Government Agencies. TACs identify the appropriation of the user of the Defense Transportation system. The TAC, in conjunction with other critical shipping data, permits the Transportation Operating Agencies to bill the Agency (activity) responsible for payment of transportation costs incurred as a result of a movement of materiel.*

2. General Information

a. References. Reserved.

b. Definitions:

(1) First Destination Transportation (FDT) . FDT is that transportation required to effect the delivery of logistics materiel from a procurement source outside the DoD supply system to the first point of use or storage for subsequent distribution within the DoD supply system.

(2) Second Destination Transportation (SDT) . SDT is any transportation of materiel which is considered other than FDT. It includes port handling, freight, cart age, demurrage, and other charges incident to the overocean movement of materiel by means of the Defense Transportation System methods, i. e., AMC, MSC, and/or MTMC port handling.

(3) Nonsignificant TACS. Other DoD and U.S. Government Agencies nonsignificant TACS are authorized for use by AMC, MTMC, and MSC activities only. TAC H000 is the nonsignificant TAC designated for these Agencies.

c. TAC Coordination/Assistance. TAC coordinators for each agency (listed in B. 1. b. (1) thru (13)) have been established to provide assistance with TAC assignment problems that cannot be determined by research of this publication.

d. Appropriations Chargeable. The appropriations chargeable are listed independently for each agency (see B.1.b. (1) through (13), this chapter); if none listed, contact the appropriate TAC coordinator..
